LP-I SPM ASSIGNMENT			
1) Create Project Plan			
Project Plan for Netflix Clone	Team Members:		
Project Name: Netflix Clone	Vaishnavi Harihar (21CO046)		
Start Date: June 25, 2023	Navnath Gite (21CO045)		
Finish Date: September 30, 2023	Harshvardhan Gaikawad(21CO044)		
Project Tasks:	Ritesh Gadre(21CO042)		
	Aryan Gaikwad(21CO043)		
1. Project Initiation			
Objectives			
1.Enable user to stream a wide variety of movies,TV shows 2. Create a search functionality that allows users to find cor			
3. Allow users to download content for offline viewing, which			
Scope			
Help center or support system to assist users with account	t issues, technical problems, and inquiries.		
Plans for ongoing updates, enhancements, and maintenance	e.		
2. Needs Assessment			
Determine who the primary stakeholders are for your project,	including potential users, investors, content providers, and regul	atory bodies.	
Determine the expected growth of your user base and conte	nt library. Define the infrastructure and scalability requirements to	accommodate this gr	owth.
3. Process Improvement Planning			
Form a process improvement team			
Brainstorm and prioritize process improvement ideas .			
Develop a detailed improvement plan.			
Develop a detailed improvement plan.			
4. Technology Evaluation			
Research and evaluate customer support software solution	ns		

Select the most suitable software for implementation			
5. Software Implementation			
Install and configure the selected customer support software			
Conduct testing and resolve any issue			
Train support staff on the new software			
6. Workflow Optimization			
Redesign customer support workflows based on the new software cap	abilities		
Implement optimized workflows			
7. Performance Monitoring(Testing)			
Set up performance metrics and KPIs			
Monitor support team performance post-implementation			
Make necessary adjustments based on data			
8. Documentation			
Create user manuals and documentation for the new processes and s	software		
Conduct training sessions for support staff			
Milestones:			
1. Project Charter Approval (End of Week 1)			
2. Needs Assessment Report Completed (End of Week 2)			
3. Improvement Plan Finalized (End of Week 4)			
4. Software Selected and Contract Signed (End of Week 6)			
6. New Workflows Implemented (End of Week 12)			
7. Performance Metrics Established (End of Week 14)			
Dependencies:			

• Task 2 (Needs Assessment) must be completed before Task 3 (Process	Improvement Planning).	
Task 4 (Technology Evaluation) must be completed before Task 5 (Software).		
Task 5 (Software Implementation) must be completed before Task 6 (W)		
Task 6 (Workflow Optimization) must be completed before Task 7 (Performance Task 7).		
• Task 7 (Performance Monitoring) must be completed before Task 8 (Doo	cumentation).	
Project Calendar:		
• The project will follow a 14-week timeline, starting on June 24, 2023, and	ending on September 30, 2023.	
Weekly status meetings will be held on Monday to review progress and a	ddress any issues.	
Project Resources and Resource Types:		
4. Designet Managery. Full times		
Project Manager - Full-time Det time		
2. Process Improvement Team - Part-time		
3. Support Staff - Part-time		
4. IT Specialist - Part-time		
5. Software Vendor - External		
Resource Assignment (Baseline):		
Project Manager: Assigned to all project tasks.		
Process Improvement Team: Assigned to Tasks 2, 3, and 6.		
• Support Staff: Assigned to Tasks 5, 6, 7, and 8.		
IT Specialist: Assigned to Tasks 4 and 5.		
Software Vendor: Consulted during Task 4 and fully engaged during Task	k 5.	
By following this project plan, we aim to streamline our customer support of	nerations improve efficiency and	
enhance customer satisfaction. Regular monitoring and communication w		_

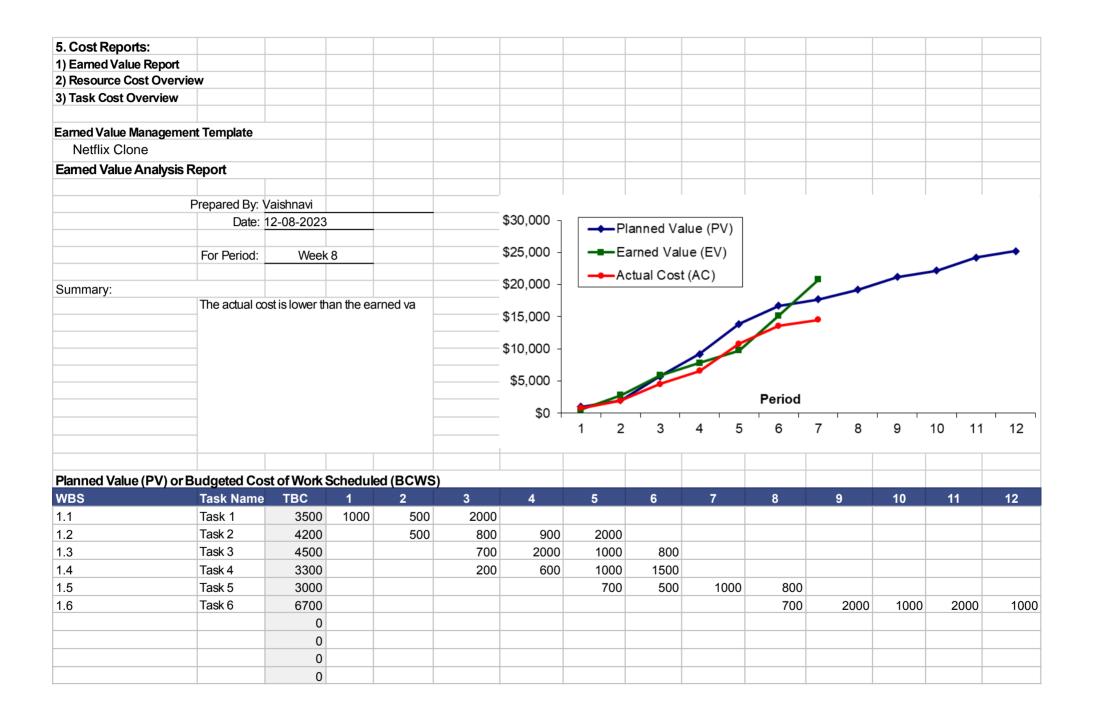

2)Execute and Monitor Project Plan Executing and monitoring a project plan is cruc	ial to oncur	that the project	t stave on track	and moote
		•	•	
its objectives. Here are the steps you can follow	V IO EXECUIE		project plan ene	ctively.
1. Update % Complete with Current Task S	Statue			
Regularly updates are collected from team in the content tasks.		agarding the pro-	groop of their too	oko
 Regularly updates are collected from team to the completion percentages based of the collected from team to the collected from the collect			-	
Modify task completion percentages based toMaintain a digital record of these updates to		<u> </u>		Jilwaie.
5. Maintain a digital record of these updates to	THORIGO GIR	e site s developri	lent enectively.	
2. Review the Status of Each Task:				
Regularly assess the status of website design	n tasks for	netflix clone to c	onfirm alignmen	t with the project plan
 Regularly assess the status of website designations. Identify and address any task delays or pote 			diffiliti aligitifici	t with the project plan.
Maintain open communication with team me	•		s and keen the I	oroject on track
5. Maintain open communication with team me		solve challerige	s and keep the	project on track.
3. Compare Planned vs. Actual Status:				
Continuously evaluate the project's progress	against the	⊥ e initial plan for d	esigning the net	tflix clone system
 Detect and analyze any discrepancies between 		•		CHIA GIOTIC GYOLOTTI.
3. Adjust the project strategy as needed to acc				
o. August the project strategy de hierard to dec			IIIIIII20 FIGRO.	
4. Review the Status of Critical Path:				
1. Identify the critical path in designing the netf	lix clone for	the movie watch	ners, tasks crucia	al for the project's timeline
2. Vigilantly track the progress of critical path ta				
3. Implement proactive measures to prevent de		naintain proiect s	chedule adhere	nce.
5. Review Resource Assignment Status:				
Verify the availability and allocation of resour	ces for the	netflix clone proi	ect	
Monitor resource usage to avoid overcommit		•		
3. Adjust resource assignments as necessary to			n and enhance	nmiect efficiency
o. / tajaot resource assignments as necessary to	o optimize i			project emoletry.

project management software or tools to track progress, and maintain open communication channels	
with team members. Additionally, considered creating status reports or dashboards to provide a visual	
representation of the project's progress for stakeholders and team members to review.	

3) Generate Dashboard and Repor	ts																											
	Dashbo	ard
